

**Submission  
No 108**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Mr Jim Tilley

**Date received:** 16 October 2017

---

It is grossly unfair for the power companies to offer such a pittance payment for the use of OUR surplus power! When we are trying to help our environment by producing clean energy from a system that we paid to have installed. Mandatory legislation needs to be put in place to prevent these power companies from wriggling out of their commitments to the community. Unless it is enshrined in law they will do everything they can to not honour the commitment.
