

**Submission  
No 120**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Mr Emmo Willinck

**Date received:** 16 October 2017

---

I support a legislated fair price for solar.

As an example looking at my last energy bill from Origin I was being charged 24.2c/kWh. Meanwhile they were paying me 6c/kWh for my solar power that went onto the grid. They then increased this to 9c whilst correspondingly increasing their charge to 28.47 c/kWh. They also increased the supply charge by a further 5c/day.

How long can you allow this to go on?
