

**Submission  
No 124**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Mr Vince Giglio

**Date received:** 16 October 2017

---

So we've invested so much in fossil fuels that we've got to keep going with it, 'less life will get a little tough. Now that we can set up our own mini Solar powered power stations on our roofs , we can help power up the country as well as ourselves. Except I don't want to sell power to the grid at half the price so the coal investing power companys can use what I invested my hard earned money with to charge the rest of us double..... just so they can pay off their 4th Lamborghini and 5th property!
