**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Mr Darren Johnson

Date received: 25 October 2017

To: Select Committee on Electricity Supply Demand and Prices in NSW
Subject: fair price for solar

Secretariat,

Big companies on-sell home-made solar electricity to our neighbours for up to five times the amount. Solar energy producers should receive

a fair price for the power they feed back into the grid.

Please see that this area of the energy market is structured with complete transparency and fairness, to all parties involved. Thank You,
