

**Submission  
No 147**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Mr Philip Tran  
**Date received:** 16 October 2017

---

I'd like to submit the following points to be considered in the NSW Upper House Inquiry into the NSW electricity system with respect to the solar feed-in tariff:

• That I support a legislated fair price for solar;

• That current tariff paid by the retailers is unfair and unjust; The tariff should have been the same as what the retailers charge;

• That the current feed in tariff price will simply discourage home owners to invest into an important green business such as the solar energy. A legislation to ensure a fair tariff is paramount;

• That the feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar;

Kind regards
