**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Mr Lex Wilkie

Date received: 16 October 2017

Hi, two factors need change.

1. A decent feed in tariff for PEAK TIME power we supply Industry at peak draw times. MIN 20 cents per kwh.
2. Energy providers providing much more information on accounts especially total Solar Generation + Solar Energy \$\$ used during the day + Gross exported power to the Grid in kwh and \$\$ credited.
