**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Mr Ray Williams

Date received: 16 October 2017

How about a fair deal for electricity users ?

How about making electricity companies pay more for solar electricity generated by me and others ?

How about doing something about Origin's access charges of about \$1.60 per day before using any electricity ?

How about looking after Australians and not the greedy power companies ?

Do something or fo.
