**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Ms Silva Rigutti
Date received: 16 October 2017

I would like to submit that the NSW Upper House support a legislated fair price for solar;

My experience with retailers has abismnal. Originally because the Solar has been mostly in credit I had to ask to receive invoices and they were never clear in the way they were calculated.

There is a need to have the setting out of invoices legislated so that they are comparable and easy to read what is consumed and how much the feed in has accrued. The feed in tariff should be represent the true value of Solar, after all we are already being charged for the use of the network and lines, regardless of usage.

I support rooftop Solar and any renewables above any and all polluting sources of power.
