**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Mr Greg Johnson

Date received: 16 October 2017

Dear madam/sir I support a legislated fair price for solar;

I think NSW needs a legislated, minimum feed in tariff that is fair;
The feed-in tariff should represent the true value of solar, this means recognising
the environmental and health benefits and the network benefits of rooftop solar;

I support rooftop solar and renewables, not old polluting sources of power.
Renewables are the future for sure and a CET is the way to do it
