**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Ms Paola Rickard

Date received: 16 October 2017

The enquiry into the electricity system needs to recognise the importance of rooftop solar and renewables and phase out the use of polluting and unsustainable sources of power. We have had rooftop solar panels for several years and have been able to reduce considerably to cost of electricity. However, NSW needs to legislate a minimum feed in tariff that is fair and which represents the true value of solar. This means recognising the environmental and health benefits and the network benefits of rooftop solar. Thanks for this opportunity to comment.
