**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Mr Kim Zegenhagen

Date received: 16 October 2017

I fully support a legislated fair price for solar;

NSW needs a legislated, minimum feed in tariff that is fair. It is absurd that we provide tax payer subsidised infrastructure to coal but can't even provide a fair feed in tariff to solar.

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar;

I support rooftop solar and renewables, not old polluting sources of power.

Yours sincerely,
Kim Zegenhagen
