No 213**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Mr Derek Robertson

**Date received:** 16 October 2017

---

On last night's news Josh Freidenberg was promoting load shedding and his AEMO CEO was stressing that every \$1 spent on reducing demand returned \$3 in avoided costs. Think of it this way. For every \$1 you pay me for daytime PV, you save \$3 in avoided generation and distribution, so when you pay me 12 cents/kWh, you are saving yourself 36c/kWh. How fair is that? a 300% margin on a transaction which takes a microsecond to transact. How cool is that? from your point of view that is...
