

**Submission  
No 218**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Mr Richard Kowalczyk

**Date received:** 16 October 2017

---

Compel the providers to pay fair price for solar tariff. There should not be a free hand in offering a low price or high price. Just one fair price. If all providers buy their power from Endeavour Energy why is there such differences in the price offered to consumers? Privatisation has not worked for the consumer. It has guaranteed higher prices. I support renewables. Coal must be phased out. No new coal mines or extensions. No new coal fired power stations.
