**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Ms Kristy Walters

Date received: 16 October 2017

Power from solar households is a valuable resource that deserves to be paid fairly. Households all across Australia are providing considerable environmental and health benefits and, especially useful, reducing pressure on the network. We need a fair, legislated price for solar exported to the grid to further support rooftop solar and renewables in this country.
