## **INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT**

**Name:** Mr Simon Fraser  
**Date received:** 21 November 2017

---

Windsor Bridge Replacement Project makes no sense. RMS only recently approved the bridge capable of taking B Double trucks which can be up to 80 tonnes. Shortly later that are saying it must be replaced as it is dangerous. The replacement bridge will not provide improved traffic flow, something the area desperately needs.

No cogent reason for the need for a new bridge has ever been put forward either by RMS or the councillors who supported it at the time or the politicians who have supported it.

Why have not the Roads Minister/s, local member/s, Planning Minister/s, Premier/s never agreed to meet with representatives of organisations opposed to the project?
