## **INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT**

**Name:** Mrs Pamela Knobbs

**Date received:** 22 November 2017

---

Bypass Windsor. 1000,s of noisy, polluting, heavy trucks going through historic Thompsons square at the present. 1000,s more in the near future when more sand quarry,s are opened up the Putty Rd. This is on top of 1000,s of other vehicles which also use Thompson Square. Why have other towns with less traffic been bypassed yet its full steam ahead despite the pleads of professional bridge experts to build around the town. The new bridge wont improve flood access and will go through yet another set of traffic lights. The multinational construction company already on site, allegedly pushed a highway in Russia through a forest despite the protests of 1000,s of people. Same here, over 40000 signatures to build a bypass to save Thompson Square and build a bridge that works, ignored by the govt and our representative Dom Perrottet. The whole project is covered by a pungent political stench
