## **INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT**

**Name:** Mr Stuart Chaseling

**Date received:** 29 November 2017

---

Greetings,

I am totally against the current plan by the Government to destroy Thompson Square and Windsor Bridge, for the following reasons:

1. Although there will be a new flood free bridge, there will still be flooding from Wilberforce to Windsor along Wilberforce Road.
2. Although there will be an extra lane on the new bridge, congestion will still occur once you are in the Thompson Square, Jolly Frog area.
3. Thompson Square can never be replaced.
4. Most traffic coming from McGraths Hill and Wilberforce into Windsor carry on. They do not appear to divert into Windsor town. Only locals visit Windsor for shopping, etc. Except for week-ends.
5. There are so many trucks passing through Thompson Square. It will only get worse.
6. There are so many cars passing through Thompson Square. It will only get worse.
7. There is no need to destroy an existing bridge., which, if a bypass is built, will only carry local traffic.
8. The traffic volume and noise generated is only a disincentive for tourists to enjoy the Windsor area.

Thank you for your consideration.

Stuart Chaseling,  
East Kurrajong.
