

INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT

Name: Mr Ray Seymour
Date received: 21 December 2017

I simply do not understand why the NSW Liberal National Party Government can ruin National Heritage for the sake of replacing a structurally sound bridge with another one. In the mean time the flood concerns have not been addressed as flooding of a major road will still occur when the river rises high enough.

It beggars belief in todays modern times that good money is used to destroy a National treasure when the money could be better used to by-pass Windsor.
