

**INQUIRY INTO WINDSOR BRIDGE REPLACEMENT
PROJECT**

Name: Name suppressed
Date received: 22 January 2018

Partially
Confidential

I am incredulous and dismayed at the continued destruction of historically significant Thompson Square in Windsor disregarding the Government's own reports and advice. A bypass is the logical solution to the heavy traffic that uses the current bridge, would preserve Thompson Square for posterity, and allow the people of the Hawkesbury to enjoy the history of the location without a massive structure of a new bridge dividing the town in half.
