

INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT

Name: Ms Kerrie Fitzpatrick

Date received: 27 January 2018

Please stop the destruction of my convict heritage at Thompson Square in Windsor. I travel over the Windsor Bridge a minimum 2 times per day and the current bridge has been confirmed to be structurally sound.

We need a bypass, not a new bridge! The current excavation has unearthed convict built drains and excavators are destroying our precious history.

I am a proud Hawkesbury resident and 8th generation convict/captain ancestry and we need to preserve our history!! Please stop this destruction to preserve Thompson Square for future generations.

Please
