**INQUIRY INTO WINDSOR BRIDGE REPLACEMENT
PROJECT**

Name: Dr Ann Packman

Date received: 28 January 2018

The raised height of the proposed new Windsor Bridge will have a massive impact on historic Thompson Square. The raised level of the road will destroy the historic beauty of the Square. The proposed extra lane will mean more traffic, especially big trucks, will use the bridge and so increase this already congested road. The proposed bridge must not go ahead. Please build another bridge to by-pass Windsor.
