## **INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT**

**Name:** Mr Shaun Brown

**Date received:** 28 January 2018

---

I think they should leave the bridge for local traffic and build a bypass down the river for all the through traffic and trucks. There's too many trucks going through Windsor already and with new housing at Glossodia and North Richmond the traffic is only going to get worse. Plus all the trucks from the sand mines up the Putty Road which will be taking sand for the airport. A high level bridge to give better flood protection is needed, not one that goes under in less than a 1 in 3 flood leaving all the people on the other side stranded.
