INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT

Name: Name suppressed
Date received: 28 January 2018

Partially
Confidential

I wish to register my Total opposition to the proposal to build a bridge 35m downstream from the Historic Windsor Bridge & to cause irreparable damage to our Thompson Square historical precinct.

I have been a resident of the Hawkesbury all my life and have always enjoyed the beauty and history of the area.

I live on the other side of Windsor bridge so I know the pain of sitting in traffic on a daily basis trying to get to and from work and to know that the only solution this government is trying to do is to build a like for like bridge that will not address traffic problems, flooding and permanently damage Thompson Square is so frustrating.

That there has been very little communication with the locals or any attempt to discuss the ramifications by our government representatives is extremely disappointing to say the least

I hope this Inquiry will address these issues

Thank you
