INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT

Name: Mr Rhys Woodman

Date received: 28 January 2018

I am opposed to the Windsor Bridge Replacement Project in Windsor and in favor of a bypass which takes through traffic away from the heart of Windsor. A replacement bridge with 3 lanes will not solve the traffic problems now and certainly not in the future. A long term solution is required that does not impact Windsors heritage the way the replacement bridge would (by destroying the old bridge and running through Thompson Square). Ruining the historic feel of Windsor just to add one more lane to the bridge is a waste of taxpayers money because it is not a traffic solution and will likely impact negatively on the community and on the tourism industry.
