INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT

Name: Name suppressed
Date received: 28 January 2018

Partially
Confidential

Dear Director,

Re: Inquiry into the Windsor Bridge replacement project.

I am writing this submission in regards to the Windsor Bridge inquiry and would like to formally express my opposition to the current Governments plan to build a new bridge, which will neither solve the current traffic situation, nor will it give flood free access as was told to the community.

In addition, Windsor, is an historic town with a community that values its deep history- unfortunately 45,000 signatures opposing this flawed plan by this current Government were and are still being ignored.

Having restored and renovated many period homes in the Hawkesbury over the years, and abided by strict guidelines to the preservation of heritage properties, I am outraged that the RMS and State Government can override these laws.

In closing, I am asking that this project be stopped and a National Heritage listing be placed on this very precious area known as Thompson Square.

Yours sincerely,
