

## **INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT**

**Organisation:** MacArthur Society in Australia

**Date received:** 28 January 2018

---

Our history should be preserved. This valuable treasure from the Gov Macquarie era should not be destroyed in the name of progress. Windsor is an area of Sydney with charm and valuable evidence of our heritage. To modernise it would be a crime. There has to be a better way! Please review the plans and come up with something that will serve the modern population but does not cause us to lose the relics of our past. Think Scotland, England, Ireland and most of Europe. Do they tear down their historical structures? No, they rebuild them if necessary (eg after WW!!) Lets be proud of our inheritance.
