**INQUIRY INTO WINDSOR BRIDGE REPLACEMENT
PROJECT**

Name: Ms Sharron Timbos

Date received: 28 January 2018

I visit Windsor regularly and am astounded that this horrible project has gotten so far.

Thompson Square is one of the oldest remaining intact places from our colonial past and deserves to be protected, not have a concrete monstrosity put through its heart.

The damage this project will do to the heritage of this town is immeasurable, and should be stopped immediately. It ruins the long term financial viability of the town but doesn't fix the traffic or flooding issues it was supposed to.

The bridge should be maintained for local traffic only. an additional river crossing should be built to take all the traffic around the town and leave this historic place for future generations to learn from.
