No 293**

## **INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT**

**Name:** Ms Charis King

**Date received:** 28 January 2018

---

Please stop the destruction of my town for a bridge that won't fix anything.

The new bridge won't fix traffic, won't fix flooding, won't provide any benefit to local business or the community, and will destroy the identity of the area, the third oldest white settlement in the country.

If the government was sensible they would build a new crossing somewhere to take traffic around the town and leave the heritage bridge where it is. It would be good enough for local traffic to use and last for as long as I will be alive.

The plans for the new bridge look horrible and tacky. they will remove all the trees from the square making it a really horrible place to go for many years, and ruin the businesses that surround the park area.

Please do not let this happen.
