

## **INQUIRY INTO WINDSOR BRIDGE REPLACEMENT PROJECT**

**Name:** Mr Steve Mulry

**Date received:** 28 January 2018

---

As a musician I travel a lot around the state and country, and this must be the only place I've ever been where they plan to replace a bridge with one that does absolutely nothing that the original one doesn't already do.

The proposed new bridge is barely higher than the current one and offers no real improvement in flood immunity.

The traffic will be as bad in 2021 as what it is already and yet the government wants to waste some exorbitant amount of money on the project/ What on earth for?

Seriously, if they go ahead with this it will prove that the clowns are running the circus and we can all wait for the next election to get a new ringmaster. If they've got so much money to burn maybe the government should be investing in the music industry - at least talented people learn from their mistakes and don't repeat them!
