**INQUIRY INTO WINDSOR BRIDGE REPLACEMENT
PROJECT**

Name: Mr Billy Nicholson

Date received: 28 January 2018

The Windsor Bridge should not be demolished. It's been there for over 140 years and would last another 140 if the RMS had bothered to maintain it. Just because its old doesn't mean it needs to be replaced. The government should build a bypass but fix the bridge in the meantime for local traffic and pedestrians. My dad taught me if something is worth doing it's worth doing right. Do the new bridge right by putting another one where it can fix all the problems with the traffic and flooding and just leave the current bridge where it is. It's pretty easy and stops all the damage to Windsor and the Square.
