**INQUIRY INTO THE MUSIC AND ARTS ECONOMY IN
NEW SOUTH WALES**

Name: Mr Shane Powell

Date received: 21 February 2018

To those involved in making decisions that affect everybody concerned with the live music industry.... First and foremost, always remember that one of the traits that separates humans from every other species on this planet, is our culture, - and that the main cultural trait of EVERY race of humans around our planet, is MUSIC!! It is the one common language we all share with NO barriers. No matter where you go in this world there are language and cultural barriers, however the one common thread is MUSIC. That said, it is your duty as decision makers to allow for any decisions to go in the favour of anything that promotes a live music venue and or gives favour to any musician/s who have learned their craft and want to perform in public. Remember... live music brings business to pubs across this country, promoting employment across the board... bar tenders, music shops, audio companies, truck rentals etc etc...but always remember the main reasons...Music passifies and satisfies fellow humans and relieves a lot of social angst. It also defines us as the ultimate beings. Long live LIVE MUSIC!!!

Thanks for listening

Shane P. NSW
