To whom it may concern,

Music has and always will be a big part of my life. Music is good for the soul, helps with depression and gives a great deal of enjoyment to many people. As part of a group of dancers we on many occasions have to travel outside of our district as our local clubs do not cater for our needs namely dance floors. We like to support our local area but our major club has only interest in poker machine players is discrimination against dancers as far as I am concerned. We are all members we dine at the club, buy drinks, but unfortunately they do not feel we deserve a larger dance floor. We have asked on many occasions if there is a possibility of them extending the floor but our requests are always denied. I hope this submission is met favourably and seriously.
