Dear Parliament, We have had our first summer without the waterslides and outdoor pool at Parramatta, and for me and my family, it has been a massive loss. We used to go to Parramatta pools, and meet up with family and friends on many summer evenings, because that's what I remember doing as a child, and it was the ONLY outdoor pool in our area. It had a great outdoor area with tables and a great community feel. The water slides were fantastic. Unfortunately, as our public voices were not heard or listened to, and big money came into the picture, my children won't have the same summer fun experiences that we did. Why have you not listened to our voices? and put unnecessary stadiums above community culture, childhood dreams and war memorials. Shame!!!
