Was there any genuine public consultation before the decision to demolish the pool was made?

- Could public views from Parramatta have actually stopped the demolition or were we just completely ignored?
- Parramatta Pool was also a war memorial – did they notice that?
- Several local schools use the pool. What about them?
- Now you have to travel outside Parramatta Council (Granville, Ryde or Olympic Park) or go north to Epping to swim in a pool – did they care about that that?
- Where's the money for a replacement pool coming from? Do Parramatta ratepayers have to fund another pool to replace the one that was demolished?
