Parramatta Swimming Pool

The demolition of the Memorial Pool was an indictment on the NSW State Government. This pool was used by families, schools, learn to swim groups, sporting groups, training and social activities. Parramatta was left without a pool for the summer, and ongoing summers. A new pool will be years away and without being fully funded will impose a burden on residents through their rates. The rising stadium overpowers and overwhelms the beauty of the St Patrick's Cathedral. How could this be allowed to happen?
