INQUIRY INTO SYDNEY STADIUMS STRATEGY

Name: Mr Drew Mollineau

Date received: 22 May 2018

This is an Iconic part of Sydney and one that remain as a part of our community. The Stadium may not be well patronised by the varying sporting organisations, but to pull this wonderful piece of architecture down is criminal not to mention a waste of public monies.

Every time I see on the new snippets of sporting events I always notice the number of people in the seats compared to the empty seats.

NSW would become a joke by other states as schools, hospitals, public transport and the list goes on would appreciate any increase in their funding.

It is time the NSW government started listening to its citizens rather than telling them what they need.
