Hi

I would like to comment on the proposal to knockdown and rebuild the stadium at Moore Park. I oppose this idea on the grounds of that this is the wrong location for an upgrade it's too congested here and when anything is on at Moore park it causes blockages on all the main roads and crossing the bridge. If a new stadium is warranted, then it should be located in the Western suburbs, so it's more accessible to the whole of Sydney. There are problems when there are events on at this stadium as it is. Like the last Rugby 7's games caused blockages and delays everywhere. It's also too close to residential and has a problem with parking. We should be maintaining more of this space to park-lands as the city grows we need bigger areas for people to go out into without crowding on top of each other. So please try and find a more suitable location for the proposed new stadium that reaches out to more of Sydney than it can do here.

Yours Sincerely
