INQUIRY INTO SYDNEY STADIUMS STRATEGY

Name: Ms Julie Bates

Date received: 22 May 2018

This submission is short and sweet. What this city needs is greater consideration for the housing needs of vulnerable people such as affordable housing for the 'working poor' such as myself and housing for homeless people and those on income support and dignified nursing home options for those unable to 'buy in' to expensive nursing homes. Not everyone is a sports fan. Sydney has sufficient playing fields and as stated above, insufficient affordable housing and dignified and safe public housing and nursing home options. Please retain the subject stadium and instead put money, which you clearly have plenty of, if you are contemplating pulling this one down and rebuilding a mega playing field, into housing the cities most vulnerable people.
