This is a submission regarding the proposed demolition and rebuilding of the Allianz Stadium in Moore Park. I am making this submission as a concerned taxpayer and worried resident of the inner city.

Demolition and rebuilding of such a new stadium cannot be justifiable without an overwhelming business case to support it. This is just not the case.

It is incredible that the current government is pursuing something like this: the community most affected by this squandering of funds is voicing its opposition in many ways (petitions and general public outcry) to no avail.

This government must stop putting private interest above public accountability, financial responsibility and protection of the environment.

The government must also investigate the failure of the Sydney Cricket & Sports Ground Trust to maintain the stadium which has led to the current safety and security problems.

Thank you for your time
