I honestly can't bear any more construction along anzac parade after this nightmare of a light rail as a person commuting from Coogee to the city. NO. No more construction. Stop wasting taxpayer dollars on sports. How often are those stadiums even full? Don't reckon very often.

Making the EQ a proper night venue would be amazing. It is totally under utilised now. But this does not require a new stadium. The stadiums are fine as is. What a waste of money to re do them. Put no lockout laws in the entertainment quarter with heaps of restaurants and bars that aren't so expensive and it will take off once the light rail goes there and buses go there. Lol. Not serviced now at all by public transit.

This is really the worst idea I've seen proposed since the lock out laws. Way to kill off nightlife in our city. I'm so against I will protest against this. There is so much better things you could spend money on. Contact me for a few. You clearly have no ideas. Why don't you pay down debt? Or finish the damn light rail. Instead youll build another 30 million dollar footbrdge that no one uses. What a joke.

I don't want any more trees cut down.

I don't want a bigger stadium.

We can't handle any more construction in this area right now.

Kill this stadium proposal.
