INQUIRY INTO SYDNEY STADIUMS STRATEGY

Name: Mr Mark Hunter

Date received: 22 May 2018

The tearing down of the SCC to enlarge the premises for paying sports fans & to attract 'Bigger Games' from Melbourne is a complete disgrace & preventable waste of our money. TV rights are worth more & there is no disruption to our lives. Sydney's current 'big infrastructure projects' are out of State Government's financial control with preventable blow-out after preventable blow-out, causing further delays by incompetent major & sub-contractors & these projects are never at the request of Sydney Residents. We are all voters & you will be removed shortly. ITMT, your State Government Bureaucrats & the Corporate infrastructure Shareholders run amuck with new stupid un-required dreams that will not add one iota of benefit to those folk who live here & are paying for it all. We do not want or need a bigger or poorly designed SCC.
