INQUIRY INTO SYDNEY STADIUMS STRATEGY

Name: Mr Adam Worling

Date received: 22 May 2018

Dear Gladys Berijeklian

The decision by your party to remove the award winning Philip Cox Stadium at Moore park is reckless at best.

There are many reasons: The community has not be consulted - and over 200,000 people have signed a petition who disagree with the need to rebuild The area is already congested and a new stadium will only create more problems for the area

The stadium rarely is at capacity

The Sydney Cricket & Sports Ground Trust has been irresponsible in allowing the stadium to slide into the current unsafe condition

Olympic Park is an ideal location for the world's best sporting and entertainment events - it simply needs better public transport

This money could be better sent on hospitals, schools and public transport

The current stadium could be refurbished and save the state a huge amount of money

PLEASE PLEASE PLEASE listen to the people - not simply the people that voted you in - and put a stop to this unnecessary building immediately.

Yours sincerely

Adam Worling
