As already said before in my previous email, we do not need extravagant sporting facilities anywhere, (except the small towns in the bush), as what we already have is the envy of 99% of the world.

Keep the money for Hospital, nurses who give more than themselves to their poorly paid job, and they are those who bring care and comfort to the elderly and those who suffer, whereas YOU, politicians, you think of yourselves first, have an over indulgent pay package, all facilities and money to last for ever...(And what about your super!!!) and what about caring a little bit more for the real needs of our society, our lovely country!

Schools and teachers first ; politicians last,
Hospitals, nurses before politicians,
Care, dwellings for the displaced and unemployed, not for those who have far too much,
(And cosy jobs after retiring from politics!!)
Nature and endangered species, politicians later as they certainly are not endangered,
The marvellous Great Barrier Reef saved from dying, icon for the world to enjoy,
The Marray-Darling basin and water ways, politicians later, (What a waste !!)
Climate change getting desperate, politician might think of it later, YES, TOO LATE,
So much promisses, so much should already have been done, and you have ACHIEVED
SO LITTLE FOR THE GOOD OF US ALL. When will you look at yourselves with
honesty?
When will you understand?
