I am writing in regard to the proposal to demolish and rebuild the stadium at Moore Park.

This is a complete waste of taxpayer dollars and is of no benefit to the community.  
This infrastructure would be better spent elsewhere in the Sydney region, perhaps in Western Sydney.

The existing facility is more than adequate.

There was almost no community consultation before planning went ahead.

I see this as plain corruption. Politicians looking to approve projects for their friends who in turn support politicians campaigns.

This is nothing but wasteful. The benefit to the community is far outweighed by the cost.

Please do not allow the demolition and reconstruction of the stadium in Moore Park.
