We, as a family who live in the southern highlands are Strongly opposed to the architecturally awarded stadium being demolished.

Key points;

- it's new and not ready for the scrap heap. Ask the custodians, the SCG trust, to pay for repairs while it has been under their stewardship.
- it's rarely, if ever full. There is no financial benefit.
- the process is flawed and quick.
- you are not listening to the people.

We live in the southern highlands and travel 150 minutes each day to work in the city, on 60 years old trains on a train line that was sold to the freight companies. Could the money be better spent, you bet ya.

Pass this and I will not vote for the government next year or for the rest of my natural.
