Comment on NSW Government proposal to demolish and rebuild the Stadium at Moore Park. I totally object to this proposal on the following grounds.

1. As a Surry Hills local for the past 30yrs I do NOT support the demolition of the current stadium designed by Philip Cox.
2. I am appalled at the secrecy that has surrounded this project.
3. As a senior citizen who has paid taxes for my lifetime I am appalled about the squandering of my tax payer dollars on this proposal.
3. This is a misleading proposal.
4. Moore Park and Centennial Parklands are being diminished in size at a time when many more people are needing open parklands for relaxation and not enclosed by built structures.
5. Infrastructure NSW is decimating MY city and my state with its appalling decision which the electorate do not think is in our best interest.
6. As a local resident there has NOT been opportunity to object or comment but only events to advise us about what is happening eg Gladys Berijikian and the light rail! is appalling
7. Loss of tree canopy means the loss of our cities lungs and cooling process, the loss for native species.
8. The SCG has failed in its duty of care of the current stadium and Show grounds.

Please consider my objection and I wish that your priorities spending to be put towards maintaining the current stadium and showgrounds and not demolish anything.
