INQUIRY INTO SYDNEY STADIUMS STRATEGY

Name: Ms Kate Gilroy

Date received: 22 May 2018

The existing stadium should be renovated. The cost benefit analysis is severely lacking. I attended the "community consultation" and was appalled at how cursory it was. I left my contact details but there has been not follow up. The exercise has been cynically managed to isolate the contentious provision of unsustainable private transport into a separate project. This project will also threaten surrounding open parkland which is the most valuable asset in the area and the one for which this proposal has no regard. This government should reappraise its reckless disregard of community concerns with its rushed planning processes.
