Good day,

I live in Clovelly and work in the Fox Studios in Moore Park, I do attend to a few sporting events each year, and I don't think building a new stadium in Moore Park makes much sense, we need this space for walking outside, enjoying the view of the black swan families raising their babies on Kippax Lake, and exercising on these grounds is a very welcome relief for our busy working lives.

Fast tracking these large projects is really not helping either, we need the greater community's feedback to really be able to judge whether this project is really wanted by a majority of residents, instead of being wanted for business only purposes.

Thank you,
