## **INQUIRY INTO SYDNEY STADIUMS STRATEGY**

**Name:** Mrs Vicki Hutchinson

**Date received:** 23 May 2018

---

I am outraged at the money this Government chooses to waste on bread and circuses. There are schools that don't have the basics of proper buildings or heating nor enough teachers. There are hospitals that are so run down it is disgusting and they are in desperate need of renovation or re-building. Education and Health should always be a priority but this government does not seem in the least bit interested in either but instead wishes to pander to a small group of people and waste an inordinate amount of money on sporting fixtures. Get real people. You were voted in to be constructive not destructive so please wake up to yourselves and what is really important to the community.
