Dear Premier,

I am writing to express my deep concern regarding your position on the stadiums. I am fervently opposed to this primarily because of the amount of money that is being proposed to spend on this project. There are so many areas in our society that are desperately in need of funding and I am so saddened by your decision to ignore these needs.

My wish is that government would be more consultative, more transparent and more creative with public money. Your actions in this matter serve only to instil distrust and disappointment. I do not feel that the government is acting for the people but rather for the benefit of developers.

This issue is one that upsets me incredibly and makes me feel more and more distrust in the people who have the privilege of government positions. There is so much need in the community, and much further afield than the city, I'm sure many regional centres would appreciate sporting facilities where quite possibly they don't even currently exist.

The current NSW government has alienated so many people and the misdirection of public money is just depressing.

Please reconsider, consult the people, and move to act in a more creative that will benefit people in need.

Kind regards,
